Dear Bud:

While helping Mary Elizabeth index your notebook, I was amazed to find the enclosed notation in your handwriting.

It is news to me to find that I have some connection with Alpha 66. I do not belong to this or any other such organization. The other person mentioned under the heading with my name - Frank Fiorini - is mentioned elsewhere in your notes, as a "bag man for the Mafia".....Am I also supposed to know him?

I do not go around whispering "Sent by Penabaz." I do have other credentials. I hope your other research is more correct. If not, I do not predict a very bright future for your work.

I would be interested to know which of our balmy friends gave you this bit of information. I think it is very funny.

Regards,

Sue Fitch
